Joseph Vernazza Senior Front-End Developer

Nutley, NJ • joe.vernazza@gmail.com • 201-694-1898

Profile Summary

• **Senior Front-End Developer** with over **20** years delivering websites, **Veeva CLM** presentations, and animated banners for pharmaceutical brands including ***Pfizer***, ***Bayer***, and ***Johnson & Johnson***.

• Specializes in **design system consolidation**, **accessibility**, **responsive design**, and **HTML email**, applying **component-driven architecture**, **performance optimization**, and **automated visual QA**.

• Wide technical skill set spanning **frameworks** (**Next.js**, **React**, **Vue**), **CMS** and commerce platforms (**Sanity**, **Magento**, **WordPress**), and testing tools (**Storybook**, **Playwright**, **BrowserStack**).

• Engaged collaborator, partnering with ***designers***, ***tech leads***, ***project managers***, and ***account teams*** through monthly design-development reviews to align priorities and hit tight launch dates.

• Technical **leader**, owning front-end architecture on multi-site builds, setting **QA** standards, and creating **Claude** tools for accessibility and security, with a practical and approachable style.

Technical Skills

Programming Languages: JavaScript/TypeScript, PHP, HTML/CSS, Sass
Front-End Frameworks & Libraries: React/Next.js, Vue, Node, Tailwind, Bootstrap, jQuery, GSAP
Build Tools & Dev Workflow: Vite, Webpack, Git, Dependabot, Storybook, Plesk, cPanel
Testing & QA: Playwright, BrowserStack, iOS Simulator, Lighthouse, Litmus, Email on Acid
CMS & Platforms: Sanity, WordPress, Magento, Sitecore, Marketo, Laravel, Veeva CLM, Veeva Vault, Agnitio, DoubleClick Studio
Design Tools: Figma, Photoshop, Illustrator
AI Tools: Claude, Figma MCP
Analytics: Google Tag Manager, Google Analytics

Work Experience

Relevate Health

Berkeley Heights, NJ

Senior Front-End Developer

Aug. 2018 - Oct. 2026

• Led **front-end** delivery for **pharmaceutical** brand **websites** and **React**-based **HCP products**, and architected the corporate site with **Next.js**, **TypeScript**, and **Sanity CMS**, optimizing **design systems** for **accessibility**, **maintainability**, and **brand consistency**.

• Partnered with ***UX/UI Designers*** on **component libraries**, primarily using **WordPress** and **Laravel**, and discussing **CSS custom property tokens** to progressively improve development efficiency and reduce redundant component code.

• Collaborated within a **cross-functional team** including **Sr. Designers**, **Sr. Director of UX**, **Sr. Project Managers**, and **Sr. Director of Engineering**, running design reviews, sprint planning, and launch readiness checks to deliver on schedule.

• Engineered accessible interfaces to **WCAG 2.1 AA** and Section **508** standards, validating with **Lighthouse CI** for a minimum **Lighthouse** accessibility score of **90**.

• Wrote **Claude** skills on **SKILL.md** definitions and scoped tool allowlists to speed **QA** and maintenance for accessibility review, **Dependabot** security fixes, and **Playwright** screenshots with viewport size presets, baseline image diffing, and custom **JS** functionality on desktop, tablet, and mobile, therefore raising Lighthouse accessibility scores to at least **90**.

• Ran monthly design-dev reviews with efficiency discussions halving component variants, cutting per-site typography styles from **10**-**12** to **3**-**4**, reducing redundant code, dev time, and **QA** remediation by **25**%.

• Led adoption of standardized front-end practices by presenting and pitching design system consolidation, **Magento** multi-site architecture, and **AI**-assisted **QA** tooling with live demos and before-and-after metrics, ultimately improving team alignment and delivery quality.

Key Deliveries

• Developed **Veeva Closed Loop Marketing CLM** presentations via **HTML5**/**CSS3** slides, **veeva-library.js** calls, and **Approved Email** rich text editor content on **Veeva** merge tokens, reusable email fragments, and animated banners, managing **Veeva Vault** assets and focusing on **CLM** and **RTE** content development.

• Shipped an **8**-**9** month international **Magento** e-commerce build as sole front-end dev using **PHTML** templates and layout **XML** overrides, unifying **4** regional sites via Multi-Store with store-view-level overrides, locale switching, and currency switching, ultimately earning a full-time offer.

• Led frontend development of the corporate website with **Next.js**, **TypeScript**, **Sanity CMS**, and **Storybook**, managing **App Router** rendering, **ISR** for marketing pages, **GROQ** queries, page builder block schemas, and site performance.

• Built **Veeva Closed Loop Marketing** presentations with **CLM Stack**: **HTML5**/**CSS3**/**vanilla JavaScript** (**JS**) and **com.veeva.clm API** calls, created **Approved Email** rich text editors on email with table-based responsive **HTML**, **Veeva** tokens, and animated banners, and administered **Veeva Vault** assets, ultimately earning **Veeva Approved Email** and **CLM** certifications.

Natrel Health

Parsippany, NJ

Senior Front-End Developer

Aug. 2015 - Jul. 2018

• Developed **10**-**15** iPad e-detailers for Veeva and Agnitio in **HTML5**/**CSS3**/**JavaScript** and **jQuery** with **GreenSock** timelines and **CSS** keyframes, building a packaging tool for Veeva slides and tuning animations for smooth on-device playback.

• Produced **20** animated **HTML** banners using **CSS** keyframes and **2** touch-screen kiosks built using **HTML**/**JS** in fullscreen mode, keeping banner payloads under **40**-**50 KB**.

• Validated e-detailer builds by running **iOS** simulator and real **iOS** device tests alongside **QA** on **Jira** tickets and shared checklists, cutting post-release defects **100**%.

Bristol-Myers Squibb

Plainsboro, NJ

Senior Interactive Developer (Contract)

Aug. 2014 - Jul. 2015

• Built **HTML** banner ads with **CSS3** keyframe animation and **JavaScript**, optimizing file size and browser compatibility, migrated from **Flash** to **HTML** with ***Google*** guidance, and published **QA** approved components through **DoubleClick Studio**.

New World Group

Secaucus, NJ

Director of New Media

Apr. 2005 - Mar. 2014

• Shipped responsive websites, touch-screen kiosks, banner ads, and **HTML** email campaigns on **WordPress**, **Bootstrap**, and **jQuery**, migrating clients from **Flash** to **HTML** and launching a hosting business running **100+** sites on **Plesk** and **cPanel**.

Ogilvy CommonHealth Worldwide

Wayne, NJ

Interactive Developer

Jan. 2003 - Mar. 2004

Education

Pratt Institute Associate's in Digital Design and Interactive Media — NYC, NY • Jan. 2000 - Dec. 2001

Certifications
